# Information about the Bodensee-Vorarlberg Leisure Card

## Validity and price

1-day card .....	€ 16
2-day card .....	€ 25
3-day card .....	€ 32

Children and young people (6 – 15 years) each pay half.

Children aged up to 6 years go free provided they are accompanied by an adult.

## Price advantage

The Bodensee-Vorarlberg Leisure Card pays off as soon as you have visited just two attractions.

Example: visits to the Karren in Dornbirn and the vorarlberg museum Bregenz together normally cost € 24 (Status December 2022). With the Bodensee-Vorarlberg Leisure Card, you can visit them from just € 16 and also travel comfortably from one to the other by public transport.

## Bus and Rail

With the Bodensee-Vorarlberg Leisure Card, you can travel free of charge by bus or train throughout the Vorarlberg region; you can also travel by train to the border stations to 'Lindau-Insel' (Germany), St. Margrethen (Switzerland), Buchs (Switzerland) and St. Anton am Arlberg. Tips and favourite places 2023

There are many reasons to keep coming back to the Bodensee-Vorarlberg region. Young people who grow up in the region sometimes need to spend some time elsewhere so that they can appreciate the beauty and quality of life more when they return. Page 9 describes how a young designer is doing, after living elsewhere for a few years, suddenly felt a yearning for her home country and now effortlessly combines the best of both worlds. Let yourself be surprised by excellent cuisine, by the view across Lake Constance from one of the mountains and, if possible, by one of the farmers' markets where regionally sourced organic products are sold. All this along with special encounters and unforgettable experiences awaits you in the region. And, if you are still feeling adventurous after a winter walk, there is always the option of joining Brini Fetz on a dip in Lake Constance. Meet her and others who aren't afraid of the cold on Sundays at 10 a.m. Why not join them? Brave enough?!

## What would a trip without encounters be?

It can be a brief glance, a kind word or an unexpected chat. Encounters are an essential elixir for us humans, for our work and for life in general. This magazine presents people with whom encounters are possible along with the places and spaces where they happen and where visitors are welcomed as guests.

We live in a natural environment that is happy to share its lavish beauty. The natural world is often also the reason for people to eventually come back, like the young designer Brini Fetz, who succumbed to her yearning after many successful years in Copenhagen and who has now returned to the shores of Lake Constance. Get to know the young woman in this magazine's profile and you will also become a little better acquainted with the Bodensee-Vorarlberg region. Let yourself be inspired and touched by art, the trades and crafts as well as by the special kind of cuisine that the region has to offer. All these disciplines are an expression of a distinct vitality and innovative strength that are worth exploring.

The people of the region are accustomed to find creative solutions and overcome crises. They have above all learned that it is best to work together. Almost anything is possible when people join forces. That is why this region has become a hotspot for unique cultural diversity without the need for a big city. It has also become a draw for music, architecture and design. All the things that make life beautiful and enjoyable are made here with lots of passion and great dedication. We are grateful for all the treasures that our region has to offer and that we are delighted to share with you whether you allow them to touch you is entirely up to you. We are opening lots of doors for you and it is up to you to choose the ones you wish to enter. Enjoy the read and your stay in the beautiful Bodensee-Vorarlberg region.

Managing Director, Bodensee-Vorarlberg Tourismus

# About the region

A central haven of tranquillity in Vorarlberg is Lake Constance whose shoreline on the Austrian side stretches for 28 kilometres through nature reserves and publicly accessible bathing areas. Its water quality is outstanding. It supplies, for instance, southern Germany with 128 million cubic litres of drinking water each year.

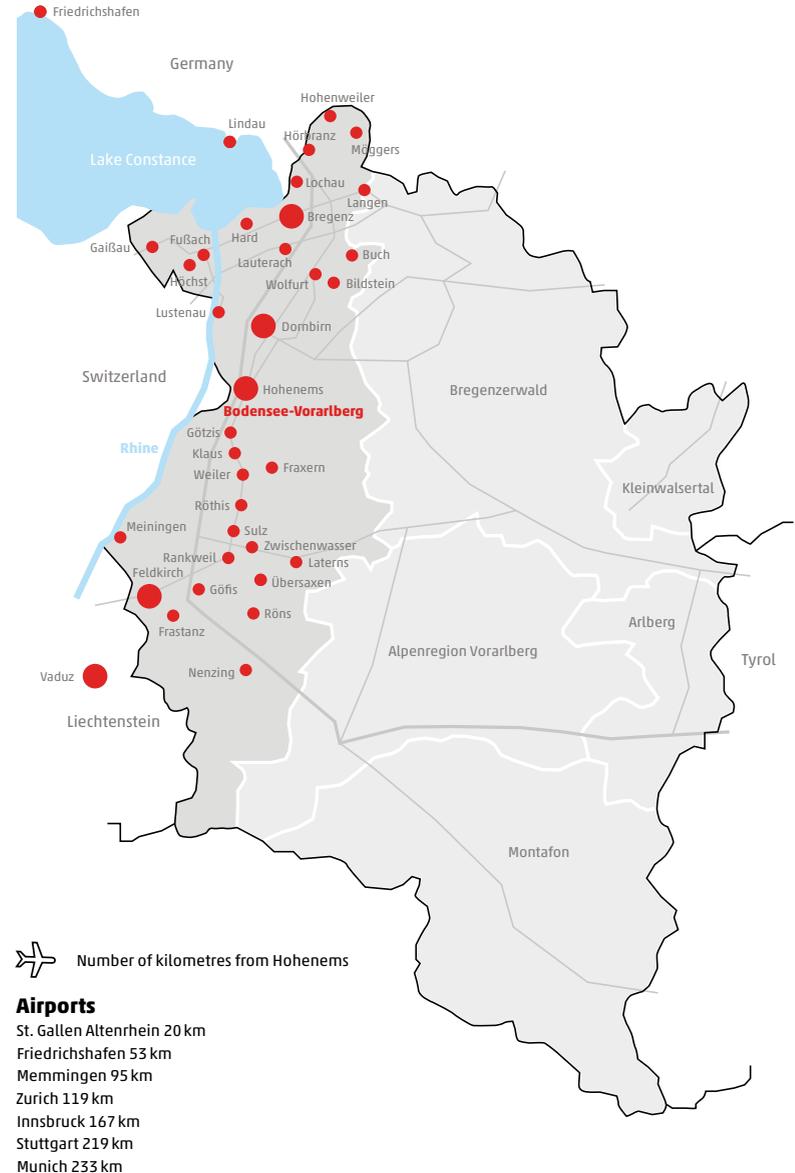

The Bodensee-Vorarlberg region is one of six tourism destinations in Vorarlberg. Our activities focus on the area between Hohenweiller in the north and Nenzing in the south of the region and – not to forget – the Rhine Valley in between with its four cities of Dornbirn, Feldkirch, Bregenz and Hohenems. Around two-thirds of Vorarlberg's population live and work in the conurbations located within the Rhine Valley.

A remarkable density of internationally successful companies, innovative start-ups and a cultural and culinary diversity is to be encountered here that comes close to that usually only found in urban agglomerations – with all the benefits and disadvantages. Traffic, for instance, is sometimes heavy, particularly on days that are great for skiing and during the summer travel season, but the public transport network and particularly the steadily growing network of cycle paths offer very convenient and attractive alternatives.

At the lowest point, Vorarlberg is situated at an altitude of 395 metres above sea level. The Piz Buin, at 3,312 metres, is the highest point in the region. The region covers an area of 2,601 square kilometres, which only represents 3.1 % of Austria's total size – a small region that's full of magnificent natural spectacles and urban amenities. About 400,000 people live where others enjoy spending their holidays – most of them are able to appreciate the quality of life here.

# Public transport

The public transport system in Vorarlberg is well developed, and offers a good alternative to driving. A standardised fare system applies to the trains, town and regional buses. The state is divided into 'zones'. A day ticket for the entire public transport system costs € 15.70 for adults. Timetables and detailed fare information are available at [www.vmobil.at](http://www.vmobil.at): you can also download an app for smartphones from fairtiq. The Bodensee-Vorarlberg Leisure Card entitles you to travel free of charge by bus or train throughout the Vorarlberg region; you can also travel by train to the border stations to 'Lindau-Insel' (Germany), St. Margrethen (Switzerland), Buchs (Switzerland) and St. Anton am Arlberg.

# Getting here

The region of Bodensee-Vorarlberg is easily accessible by all routes, and from all directions, with a very well-developed public transport network. The trains (between Bregenz and Feldkirch) and buses are complemented by the vessels that Vorarlberg Lines operates on Lake Constance and that are used both as a means of transport and for excursions.

## Breathe in, breathe out.

**Brini Fetz loves cold-water swimming and, thanks to a soft spot for food, founded her designstudio hej studio, which specialises in food branding.**

After studying business and graphic design in Vienna, Brini Fetz found her ideal master's programme in Denmark at the Copenhagen Business School: Management of Creative Business Processes. Thanks to her locally founded and food focused Event- and Communication business, two planned years in Copenhagen turned into eight. During that time Brini did not only learn to speak Danish, but also to love swimming in icy cold water, which is firmly rooted in the culture of the far north.

"There has been lots of research on cold-water swimming, the body produces all kinds of endorphins and adrenaline in cold water, in other words: everything that makes you happy," she explains. She also brought winter swimming back to Vorarlberg with her. Back home, Brini specialised in food branding and in 2020 founded her designstudio hej studio in Bregenz.

She is happy to explain why she returned to Vorarlberg: "Living in a region like this, where mountains meet the lake it's a luxury. Where else can you do a quick hike up the Pfänder mountain, take the cable car back down and quickly hop into the lake all before work? I also like the mentality here, the pragmatism. Together with the curious, open spirit of the north, this creates a fertile ground for everything we do at hej studio."

With the end of summer season, the ice swimmers usually meet once a week to start getting used to the increasingly colder water as temperatures in Lake Constance begin to drop. The pier in Bregenz is the unofficial spot for the Sunday dip this winter. "Anyone who'd like to experience this is welcome. You simply get in the water and all you have to do is remembering to: breathe in, breathe out."

# Culture meets you.

Culture is, without doubt, the first answer that comes to the mind of each and every local when asked to name the most prominent feature of life in the region of Bodensee-Vorarlberg. Cultural life in the region is high-brow – as high as it possibly can be for a region which doesn't have a big city. Something has established itself here which you normally only find in cultural conurbations, i.e. wide acceptance for art and culture, which leaves a lasting impression on the atmosphere. The major cultural institutions with their international appeal and the many regional productions, of an exceptionally high quality, have contributed equally to this. Essentially, a lively cultural scene influences all areas and boosts the quality of life.

### Bregenz

#### Bregenzer Festspiele (Bregenz Festival)

'Madame Butterfly' – the famous opera by Giacomo Puccini – is going to be presented on the Bregenz lake stage for the second time in summer 2023. The story is about a Japanese geisha girl's tragic love. Giuseppe Verdi's 'Ernani' a gripping drama about love and revenge is being performed at the house opera at the Festspielhaus. The orchestra concerts invite audiences to travel on exciting explorations through a variety of sounds and cultures.

#### A look behind the scenes

It is the world's largest lake stage – and it welcomes interested visitors to take a look behind the scenes at all the goings-on. Guided tours take place from 🕒 the end of May until the end of the festival season.

#### Dance Festival Bregenzer Frühling

This dance festival has attracted an international audience since the 1990s. For a good reason: this is the place to experience the stars of the international dance scene, and legendary premières and unforgettable performances have maintained a reliably high standard. Frequent standing ovations express the audience's enthusiasm.

#### Schubertiade Hohenems

The 'Schubertiade' is one of the most renowned classical music festivals world-wide. Nowhere else does the programme cover such a large number of lieder recitals with the best artists in the world in such a short space of time. The festival also includes chamber concerts and piano recitals of the highest quality. The main event locations are in Schwarzenberg (Angelika Kauffmann Hall) and in Hohenems (Markus Sittikus Hall), both of which guarantee an incomparable musical experience with their phenomenal acoustics.

## Emsiana

It's worth finding out more about Hohenems – and with a much broader focus than on just its unique history. The latest developments in this small town include a culture festival, which is by now writing history itself. From classical concerts to world music and contemporary art exhibitions through to children's performances, this culture festival makes Hohenems a place to remember.

### Brini Fetz

Proprietor hey studio, Bregenz

*"Culturally, there is so much going on in Vorarlberg. I am a big fan of the 'Montforter Zwischentöne' for example - a festival between dialogue and music, where everything revolves around artistic, dramaturgical interpretations of everyday culture. The formats are very progressive and combine classical music with modern productions."*

Montforter Zwischentöne

## Feldkirch

### poolbar-Festival 📅

The 'Alte Hallenbad' in Feldkirch turns into cultural hotspot in summer. The programme ranges from family-friendly jazz breakfasts in the park, cinema, cabaret, slams, discussions to concerts until dawn by renowned bands and those that are still considered insider tips.

## Musik in der Pforte

The series of chamber-music concerts in Feldkirch has been presented at venues across Vorarlberg for more than two decades now. 'Musik in der Pforte' approaches the terrain of chamber music in a curious and questioning style. The concert formats combine such separate genres as literature, philosophy, theatre and music and regularly thrill sold-out venues.

## Montforter Zwischentöne

The event that is the Montforter Zwischentöne is a festival for the time-spaces between dialogue and music. It's staged once a year and revolves around a different specific theme each time. The themes are associated with seasonal sentiments, customs and festivals. It is in this way that interrelated programmes are created alongside new formats that combine the artists and experts' experiences with the audience's. Two special highlights are the grande finale of the Hugo competition and the 'Kolabor' format, where everyone can take part, in March 2023.

# Encountering buildings meet you.

Attractive excursion destinations to historical and architectural sights are on offer across the region. Vorarlberg has always been a frontier region and a strategically important location, which is why, from the Romans to the Habsburgs, changing powers have built and maintained massively walled outposts. Castles, palaces, churches and ruins remain popular attractions and make it possible for visitors to travel back in time.

But modern architects have also come up with some impressive answers to the demands of today's world. It's not for nothing that entire classes of architectural students take trips to Vorarlberg for inspiration. The following pages can act as a guide if you wish to take a similar trip.

## Architecture

### Bregenz and Environs

#### Kunsthhaus Bregenz (arts centre)

Architect Peter Zumthor

The lake with its constantly changing plays of light provides the outer decoration for the glass lamp structure that encloses the concrete cube of the Kunsthhaus. It was intended to be a simple container for art, said Peter Zumthor at its opening, and because he always radically implements whatever he has found to be right, the exhibiting artists are confronted with this grandiose simplicity. There is no view from the inside out, the exhibition rooms in the three upper storeys are each limited by concrete walls behind which the staircases and lifts disappear and even the daylight and artificial lighting are only allowed in through the ceilings between the storeys.

#### vorarlberg museum (state museum)

Architects *cukrowicz.nachbaur*

"The museum contains Roman vessels, up to 10,000 copies of which were manufactured in one firing", says Anton Nachbaur. "So this is real mass production. We asked ourselves what the equivalent would be nowadays. That's how we hit on the idea of the plastic bottles that you see everywhere." These now decorate the facade of the new part, which opens onto Kornmarktplatz, whilst the historically preserved part remains facing the lake, without the plastic bottles. Inside, thick earth plaster walls and untreated wooden floors convey a natural atmosphere.

[www.vorarlbergmuseum.at](http://www.vorarlbergmuseum.at)

#### Die Welle (harbour building)

Architects *Wolfgang Ritsch, Nägele Waibel, Bruno Spagolla*

'Die Welle' serves both as the harbour building and a cafe, fits perfectly into the complex of large buildings on Seestrasse and, with its automatically opening and closing glass front, provides a softer response in size and shape to the glass cube. In any case, in the 'Welle', far away from the noise of the traffic at last, you can sit exactly where the sun looks most beautiful at sunset.

#### Brini Fetz

Proprietor *hey studio*, Bregenz

"The *Milchpilz* in Bregenz is simply a cult place to be for me. Its wide range of milk drinks and a small but fine selection of snacks combined with the cool toadstool look have been delighting customers since 1953."

*Milchpilz* Bregenz, p. 48

Tip

#### Festspielhaus Bregenz (festival house)

Architects *Dietrich | Untertrifaller*

The floating stage, with 7,000 seats and its view of the stage and the open horizon, is one of the landmarks of Vorarlberg. The event venue and congress centre, however, also boasts a large hall with 1,800 seats, various studios and the Werkstattbühne area. In 2006, the original building, dating from 1979, was renewed and expanded by architects *Dietrich | Untertrifaller*. Further reconstruction and renovation work is happening until 2024.

#### Michelehof (farmhouse)

Architect *Phillip Lutz*

Schnapps distillery, sales room, tasting room, schnapps warehouse, machine hall and workshop – plus three generations housed in the residential part of the farmhouse and a stall for the cows; all of these are harmoniously contained and sensibly designed in the new construction by Phillip Lutz. And this is precisely what it needs, because customers for the legendary schnapps from the Michelehof appear regularly and in vast numbers – and rightly so.

#### vai Vorarlberg Architecture Institute

It was on the initiative of members of the national association of Vorarlberg architects which brought about the Vorarlberger Architektur Institut in 1997. The vai regularly holds exhibitions, offers round-table events, guided tours of particular architectural gems and operates a reference library which also contains numerous periodicals.

## inatura Museum

*Architects* Dietrich|Untertrifaller, Hermann Kaufmann, Christian Lenz

The industrial history of Dornbirn left a disused assembly building and foundry on the site of the Rüscher works. To build the museum and the municipal park designed by the landscape architects Rotzler Krebs Partner, parts of the building had to be demolished but the assembly building, the old and new foundry, the turning shop and the smithy have been retained. An extension was required for the offices and ancillary rooms.

[www.inatura.at](http://www.inatura.at)

## Stadtbibliothek Dornbirn (library)

*Architects* Christian Schmölz, Dietrich|Untertrifaller

The library in Dornbirn's Schulgasse, newly built in 2019, is one of the city's architectural highlights. Reflecting the building's function, the oval façade with more than 7,000 ceramic bricks is reminiscent of bookcases and shelves. Floor-to-ceiling windows in all four directions allow the light to flood through the building and symbolise openness and tolerance for all.

## Feldkirch and Environs

### Montforthaus (cultural and conference centre)

*Architects* Hascher Jehle, Berlin and Mitiska Wäger

The secret of this successful architecture in the heart of a network of narrow old city streets can be admired in the cultural and conference centre of Feldkirch; soft, twisted shapes make ideal use of the available space without producing an ugly rear site anywhere. The historic Old City and a listed city wall contrast very charmingly with the light, bright facade, and the mighty rock wall on one side and the Schattenburg on the other suddenly look down in a kindly way on the new building.

→ Montfortplatz 1, Feldkirch, T +43 (5522) 90 09,  p. 37 – 5

[www.montforthausfeldkirch.com](http://www.montforthausfeldkirch.com)

### Islamic Cemetery

*Architect* Bernardo Bader

A further award-winning feature can be found approximately 15 kilometres away, at the only Islamic cemetery in the state of Vorarlberg. This cemetery won one of the most internationally important architecture prizes in the form of the 'Aga Khan Award'.

Islamic Cemetery, Altach

### Wasserhaus Götzis (art object)

*Architect* Fridolin Welte

This concrete cube is a meditative place where everything revolves around the vital element of water. The artist Fridolin Welte designed the building in 2003 as part of an art competition. The Wasserhaus features walls with holes that resemble a membrane. It is reminiscent of how the human skin works as it breathes, protects and cools.

→ Montfortstraße 88, Götzis, T +43 (5523) 625 010

[www.bit.ly/wasserhaus-goetzis](http://www.bit.ly/wasserhaus-goetzis)

### Artenne (old farmhouse)

*Architect* Hansjörg Thum

The barn of a farmhouse built in 1841 now houses a lively cultural centre with contemporary literature, film and art. During the essential alteration work, the original structure was retained as far as possible, with new elements supplementing the historic part. The complex network of different levels was also tackled with great care, and the levels are connected by two staircases and a footbridge, instead of a central staircase. The former timber plank hay loft has been transformed into an unusual exhibition space.

## Palaces and castles

### Bregenz and Environs

#### Castle Hohenbregenz, Gebhardsberg

The Gebhardsberg was appreciated as one of the best vantage points in the whole of the Lake Constance area even 900 years ago. Of the 'Hohenbregenz' fortress (today's Gebhardsberg ruin), all that is left are the remains of the walls. Today a castle restaurant with a medieval ambience and a magnificent panorama terrace sits enthroned in this spot.

→ Gebhardsbergstraße 1, Bregenz, T +43 (5574) 425 15

#### Mittelweiherburg (castle)

This moated castle was built in the headwaters of the Harder Dorfbach (Hard village stream) in 1570. It is where Vorarlberg's textile industry was established in 1794 and where a fabric printing shop was later also set up. The textile printing museum commemorates that history to this day.

[www.bit.ly/mittelweiherburg](http://www.bit.ly/mittelweiherburg)

#### Schloss Hofen (palace)

The striking renaissance structure built by the Counts of Raitenau established itself as an international centre for science and further education in 1981. Further education courses and master's programmes are available in cooperation with the Vorarlberg University of Applied Sciences as well as international universities and colleges.

#### Schloss Wolfurt (palace)

'Schloss Wolfurt' towers above the municipality of Wolfurt and is able to look back on a long history since 1217. Many changes of ownership have left their mark over the ages. It is today owned by the municipality of Wolfurt. It is scheduled to open as an event location in 2023.

→ Schlossgasse 10, Wolfurt

## Hohenems

#### Ruine Alt-Ems (castle ruin)

The ruin of one of the largest castle complexes in Central Europe sits enthroned above the town of Hohenems: today's ruin at Alt-Ems were 800 m long and up to 85 m wide, had 7 gates, 1 drawbridge and 47 chambers. The castle, originally Guelph and, between 1179 and 1191 Staufian, has been redeveloped and is preserved for future generations.

→ Schlossberg, Hohenems, T +43 (650) 862 05 86,  p. 34

[www.alt-ems.at](http://www.alt-ems.at)

#### Renaissance Palace Hohenems

The palace used to be the residence of the Counts of Ems (their marriage policy led to them being related to the Medici) and, along with Gloppe castle and Alt-Ems castle ruin, is still privately owned. Of special mention regarding the history of the palace is the discovery of manuscripts A and C of the song of the Nibelungs. Exclusive insights into the premises are granted within guided tours.

#### Schloss Gloppe (palace)

Schloss Gloppe is located somewhat concealed within the hill of Hohenems. The building was first mentioned in records in 1401 and it has since been able to look back on an eventful history of destruction, restoration and reconstruction. It has been in the possession of the aristocratic Waldburg Zeil family, which has restored it with great attention to history and detail, since 2016. It has been run as a five-star hotel since 2018.

## Feldkirch and Environs

### Schloss Amberg (palace)

Schloss Amberg is to be found nestled within dreamy surroundings at one of the most beautiful viewpoints in Feldkirch. It was built by Emperor Maximilian for Countess Anna von Helfenstein in 1493. Amberg Castle has been owned and managed by the Scheyer family since 1928. A broad range of exciting events are often staged there.

### Jonas-Schlössle (palace)

The Jonas-Schlössle in the Lake Constance region is regarded as a special example of a stately residence from the renaissance period. The listed building's interior impresses with artistically carved wooden ceilings, massive timber beams and magnificent wall panelling. Nowadays the Jonas-Schlössle is used as a characteristic location for Christmas markets and wedding fairs and is home to the Schlössle bar, where visitors may take a drink or two in unique surroundings.

### Bregenz and Environs

#### Stadtparish Church St. Gallus

Converted in the 18th century according to the plans of the baroque master builder Franz Anton Beer, this church stands on the very foundations of a Romanesque church from the second half of the 5th century. A lovely example of Lake Constance baroque art. The silver altar can be viewed upon request.

→ Kirchplatz 3, Bregenz, T +43 (5574) 901 80

#### Herz-Jesu Church

The Herz-Jesu Kirche (Church of the Sacred Heart of Jesus) rises on a plateau above the centre of Bregenz. Its two steeples and brick-red walls announce the church to visitors from afar. With its lancet windows, it is visually reminiscent of an old Gothic cathedral but one that has been built with bricks.

→ Kolpingplatz 1, Bregenz, T +43 (5574) 420 25, [📍 p. 37 – 6](#)

#### St. Martin's Chapel

The St. Martin's Chapel is located in the upper town of Bregenz, next to the St. Martin's tower. The choir is adorned with a Gothic fresco cycle from the 14th and 15th century. This is one of the most precious cultural assets of Bregenz.

→ Oberstadt, Martinsgasse 3, Bregenz, T +43 (5574) 410 15 61

#### Monastery Church Mehrerau

The only abbey that still fulfils its original purpose to this day is Mehrerau Abbey. It has been one of Vorarlberg's most important cultural sites from the early Middle Ages and remains so to the present day. The church at Mehrerau Abbey surprises with an almost unadorned matter-of-factness and sublime simplicity. Its cellar is home to a culinary venue with a beautiful garden for guests in the courtyard.

→ Mehrerauerstraße 66, Bregenz, T +43 (5574) 714 61

#### Basilica Maria Bildstein

The Basilica Maria Bildstein is able to look back on many centuries of pilgrimage. After the apparition of the Virgin Mary in 1629, the chapel was no longer large enough. In 1662 Michael Kuen, a master builder from Bregenz, designed a new church and in spring 2018 the pilgrimage church was declared a basilica as the result of its most recent renovations. Its exposed location with fantastic views makes it a popular destination in the region.

### Cistercian Abbey Mariastern

The former residence building of Gwiggen with the Loretto Chapel dates back to the 17th century. The abbey welcomes all guests to services, taster days, fasting periods, herbal seminars, the abbey shop and more.

→ Gwiggen 1, Hohenweiler, T +43 (5573) 822 34

## Dornbirn

### St. Martin's Church

The city's parish church of St. Martin is probably the best known church in Dornbirn, located as it is in the middle of Marktplatz, the market square. An interesting feature inside is the fresco on the entrance wall: it depicts the poets Dante and Milton and the artists Michelangelo, Dürer, Rubens and Signorelli as interpreters of hell. A Marian chapel was added to the south; it is home to images depicting scenes from the life of St. Martin.

→ Marktplatz 1, Dornbirn, T +43 (5572) 222 20

## Hohenems

### Catholic Parish Church St. Karl Borromäus

The magnificent late baroque-classicist hall building that houses the Catholic parish church of St. Karl Borromäus in the centre of Hohenems is already visible from a distance. The church was built at the end of the 18th century to plans drawn up by Jakob Scheiterle.

→ Marktstraße 1a, Hohenems, T +43 (5576) 723 12

## Feldkirch and Environs

### Basilica Rankweil

The basilica is the landmark and heart of Rankweil. The church on the 'Liebfrauenberg', at an altitude of 50 m, is a fortified church – a special form of early Christian places of worship in Rhaetia built on a height making it hard to reach. Along with the artist Matt Mullican, Cukrowicz and Metzler have extended the space of the Landesgedächtniskapelle. An oblique ray of light falls onto the glass cabinet which houses mementos. The chapel has become a unique monument.

St. Nikolaus Cathedral Feldkirch

### St. Nikolaus Cathedral

This is Vorarlberg's most significant gothic church, consecrated as a parish church in 1218. Following severe fires in the 14th and 15th centuries, it had to be rebuilt in 1478, this time bearing the late gothic nave and gable roof it still has today. Upon the establishment of the diocese of Feldkirch, the parish church was made into a cathedral in 1968.

→ Domplatz 6, Feldkirch, T +43 (5522) 7223 20,  p. 47

### Buddhist monastery

Tibetan monk Geshe Rabte Rinpoche founded a Buddhist monastery and study centre on the hill of the Letze in Feldkirch Tisis in 1982. The Dalai Lama paid a visit to Feldkirch shortly thereafter. The white stupa presents views of the surrounding mountains and perhaps also a sense of the special energy that emanates from this spiritual location. A very beautiful path to walk also leads past there up the Stadtschrofen in Feldkirch.

## Other historical buildings

### Bregenz

#### St. Martin's Tower

The Martinsturm, Bregenz's landmark, owes the grand impression it makes to its magnificent baroque onion dome. It was formerly a granary and was converted into a watchtower in around 1600. Its baroque onion dome is covered with wood shingles and is thought to be the largest in central Europe. It is now home to a museum of urban history.

[www.martinsturmbregenz.at](http://www.martinsturmbregenz.at)

#### Narrowest house in Europe

The building at Kirchstraße 29 is said to be the 'narrowest house in Europe'. The building does not possess its own external side walls but was inserted into the existing gap between two others. The façade that faces Kirchstraße is only 57 centimetres wide. It today houses the Galerie 9 and 20.

→ Kirchstraße 29, Bregenz,  p. 49  
[www.galerie9und20.at](http://www.galerie9und20.at)

#### Milchpilz (Milk Mushroom)

The Milchpilz (Milk Mushroom) on the lake promenade in Bregenz has long enjoyed cult status. The kiosk stands out for its toadstool design. Milk mixers, dairy products and snacks from Vorarlberg have been on sale here since 1950.

→ Seestraße 2, Bregenz,  p. 36 – 4  
[www.milchpilz.at](http://www.milchpilz.at)

### Dornbirn

#### Rotes Haus (red house)

The house dating back to the early 17th century is one of the last baroque Rhine Valley houses in Vorarlberg, and is considered the town's landmark of Dornbirn. The deep-red wooden facade is remarkable, and lends its name to today's restaurant.

→ Marktplatz 13, Dornbirn, T +43 (5572) 315 55,  p. 36 – 1

### Feldkirch

#### Katzenturm (tower)

Just a few sections of Feldkirch's former city wall have survived to this day. The Katzenturm (Cat's Tower) is one of them. It used to be a defensive tower. It is not entirely certain these days how it came by its name. One theory is that the cannons used at this original defensive tower were equipped with devices for aiming called 'Katzenköpfe' ('Cats' Heads).

# Conscious enjoyment meets you.

What makes life even better: good food, fine drinks and a hospitality landscape of diversity and culture. In this respect, the region is exceptionally fortunate because it is densely populated with attractive restaurants and pubs that boast top-class staff. Many renowned chefs have brought creative recipes and ideas home with them from their experiences abroad and put their ideas of regional cuisine into practice here. The awareness for seasonal offers and environmentally compatible culinary delights is strongly pronounced and also embedded in reliable cooperation with regional food producers. All this is under the motto of togetherness, in good Vorarlberg we say: #zäm.

# Food and Drink 🍴

The list of good restaurants, cafés, bars and ice-cream parlours is so long that it could fill an entire magazine. All these places to visit have been listed on-line for your convenience in such a way that allows them to be immediately filtered by the preferred type of venue.

## #zäm: a region full of partnerships

When a comparatively small area like the Bodensee-Vorarlberg region is able to boast a countless number of innovative businesses and companies operating to the highest of quality standards, it could be easily assumed that competitiveness is particularly pronounced there. But that is not the case on the contrary. There rather exists a large number of good partnerships that delivers extremely positive benefits to both sides. The region's manageable size does not encourage competitiveness but rather facilitates cohesion. Johannes Allgäuer from the Sennhof in Rankweil, for example, is sure of it: "Everyone knows everybody else here in some way. And if you need something from someone, you always know someone who has a phone number." It seems that people have understood one thing, particularly in the Bodensee-Vorarlberg region: a lot of things work better if you are not always anxious that your opposite wants to take something away from you.

Many of the partnerships in the region extend far beyond traditional business relationships. Sometimes they result in new business models, sometimes in innovative products and sometimes even in friendships. The #zäm project developed by Bodensee-Vorarlberg Tourismus, Markus Curin and Super BfG brings these partnerships into focus. It shines the spotlight on the companies involved, presents joint projects and also frequently brings the interpersonal relationships into focus. #zäm uses these examples to show that it is not only the companies themselves that benefit from such joint ventures. The entire region, its guests and not least the people who live there are able to draw from the benefits. That is why we will continue to share exciting and inspiring stories under the #zäm heading.

# Regional treasures meet you.

Weekly markets and speciality shops carry within them the taste of a federal state. And each region has its own specific types of culinary product, which are well worth seeing – or rather experiencing and enjoying. It would almost be criminal to pay too little attention to them because they're easy to find in any locality and produce sensations that remain unforgettable. Anyone who has ever tasted a Lustenau mustard or a bag of Fraxner cherries or Vorarlberg mountain cheese... not to mention chocolates made by the craftspeople of Vorarlberg – there's not only abundance and pleasure but also the know-how for refining the region's natural produce into products that deliver maximum enjoyment.

### Alma Käse

Over 100 years ago, 'Alma' was founded by Vorarlberg farmers. Later, the private cheese dairy 'Rupp' has taken over and sells now under the brand 'Alma' first-class mountain, alp, cut and spread cheeses as well as other regional specialties. Available, in 'Alma Käslädele' in Hard and in the direct sale in Hörbranz, as well as directly in the mountain dairies 'Lutzenreute' and 'Hinteregg' and in the online store. Also guided tours in the alpine dairies are possible.

## Markets

Naturally, stylish cooking and a healthy diet have their roots in shopping at the weekly market, where fresh produce straight from the farm, fish straight out of Lake Constance and home-made pasta can be found. The collection of home-made jams and herb cosmetics made mainly from regional, natural raw materials: for a great feeling when you know what you are buying.

### Theresia Winder

Winderhof, Dornbirn

*"We have been present at the Dornbirn farmers' market for many years. We particularly appreciate the personal contact with visitors there. The Markplatz, the market square, with the Martinskirche, St. Martin's Church, and the listed buildings exude a special flair."*

Dornbirn weekly market

### Dornbirn weekly market

With more than 60 stalls, the farmers' market in Dornbirn is thought to be the largest market in Vorarlberg. Its central location on Marktplatz, the market square, in Dornbirn that is lined by many inns and cafés have made it a popular meeting place for both locals and visitors alike. Regional sourcing and seasonality play a major role. The flower market on Schulgasse presents a colourful finale.

🕒 Wed and Sat 8 a.m. to 12 p.m.

### Bregenz weekly markets

The farmers' markets in Bregenz focus on regional delights. More than 35 market stalls are to be found at the beautiful Kornmarktplatz every week. There's also the Bauernmarkt, the farmers' market, on Kaiserstraße, the Vorklostermarkt and in the warmer months a smaller market at the 'Leutbühel'. Speciality markets are also frequently arranged.

Kornmarktplatz 🕒 Tue and Fri 8 a.m. to 1 p.m.

Bauernmarkt 🕒 Fri 8 a.m. to 12 p.m.

Vorklostermarkt 🕒 Thu 8 a.m. to 12.30 p.m.

### Hohenems weekly market

Select, regional products and specialities may be found at the farmer's market in Hohenems. The farmers' market in Hohenems offers a special ambience with its view of the Renaissance Palace and the Schlossberg.

🕒 Thu 8 a.m. to 12 p.m.

Christmas market Feldkirch

## Christmas markets in the region

There is a magic spell over Vorarlberg in the pre-Christmas season. Once it is already dark in the early evening and the first snowflakes fall, the small and large Christmas markets in the region spread the fragrance of roasted almonds, mulled wine and regional specialities. Small handmade presents and entertainment events for children vary from market to market – which is why it is best to let yourself be inspired everywhere.

### Christmas market Bregenz

The Christmas market in Bregenz is open from 11 a.m. and attracts great attention in the inner city. The nativity scene with real animals for petting, a small ice rink, the house of the St. Nicholas and many other amusements for children's hearts act like a magnet for children. Sales stalls, tasting culinary delicacies and special meeting places create the contemplative atmosphere which is also part of Advent.

→ Kornmarktplatz, Bregenz

A second Christmas market enchants the medieval lanes in the Bregenz Upper Town on the weekends before Christmas. The two markets clearly differ: small and fine in the Upper Town, larger and colourful in the centre of Bregenz.

→ Martinsplatz, Bregenz

### Christkindlemarkt Dornbirn

The centre of Dornbirn transforms itself into a festival of Christmas for young and old during the run-up to big holiday. Selected artisans, an extensive children's programme and various delicacies make a trip to Dornbirn's town centre an unforgettable experience. The seasonal atmosphere is carried along by the market place's bars and restaurants that will be serving traditional delights.

→ Marktplatz, Dornbirn

### Christmas market Feldkirch

Located in the middle of the historic Old Town, the Christmas market invigorates the Marktgasse from the end of November. The setting of the venerable facades even contributes to the Christmas atmosphere, while decorated shop windows and arcades as well as the attractive range of goods and the harmonious supporting program attract numerous visitors.

# Experiences meet you.

It is well-known that the region of Bodensee-Vorarlberg has an abundance of developed hiking and cycle paths, skiing areas, swimming lakes and publicly accessible shores to Lake Constance. It is also well-known that many of them are associated with a varied range of leisure activities for children, families, sportspeople and hikers. However, we would like to take this opportunity to point out that you need time and peace of mind to not rush about from one place another, but rather to emulate the pebble that falls into the water, i.e. slowly let yourself go in one place. Try standing still awhile and enjoying what you see. You will be rewarded.

#### Doppelmayr-Zoo

Doppelmayr Zoo in Wolfurt has been home to more than 400 animals from more than 70 species since 1963. The one or other animal – the pygmy goats and donkeys, for example – also enjoy being stroked. Alpacas, fallow deer, yaks, raccoons and more have found a home here. The exotic species include coatis, turtles and kangaroos. Parrots, cockatoos and parakeets, along with native bird species such as snowy owls and pheasants, inhabit the open-air enclosures.

### Lauteracher Ried (nature reserve)

Curlews, black-tailed godwits, even corn crakes have found a home in the marsh that is the Lauteracher Ried. So respect the nature. But there's still enough space for long walks, bike rides and picnics in the countryside. The 'Jannersee', for example, is located in the middle of the 'Lauteracher Ried', where you can have a wonderful picnic or go swimming.

## Cycle paths

Whole new perspectives of a landscape are revealed when you cycle. The cycling paths take you through natural nature reserves, along the banks of the River Rhine, along the shores of Lake Constance, and through forests and meadows. The routes that follow are only a small selection of the many paths that cross one of the most attractive regions. This way of getting around becomes even more appealing when you think that you will get to see hidden inns, man-made lakes and rare species of birds and plants that you probably wouldn't get to hear about otherwise.

→ You can find a map of the new network of cycle paths in the jacket.

### Around Lake Constance

### Brini Fetz

Proprietor hey studio, Bregenz

*The 'Mili' is for sure one of the most amazing bathhouses at Lake Constance. Although only a few metres from the shore, you feel immediately far away from the city. I find it most beautiful in the morning, when there are not many people around and you feel like you have the whole lake to yourself.*

'Mili' Bregenz, p. 86

## Boat trips on Lake Constance

The vessels have long since been transformed into more than simply a means of transport; they're much more a source of adventure trip for children and young people as well as for those who are no longer that young any more. The 'Vorarlberg Lines' and the 'Historische Schifffahrt Bodensee' are happy to welcome visitors on their boats. 🚢 p. 91

### Vorarlberg Lines

The best way to reach the loveliest tourist attractions on Lake Constance is by boat. For a short trip to Lindau, to the botanical rarities on the Mainau Island, Sea Life in Konstanz – the time on board is a pleasure. Yet the thematic trips such as the three-country panoramic cruise and others are also very popular, for a good reason.

# Variety meets you.

Vorarlberg is made up of six regions, each of which is capable of filling an entire holiday with their beauty, their culture and pleasure. Naturally, however, they are also great for day trips, with the mountain roads and ranges you encounter en route making your trip worthwhile. You are already holding a plethora of information about the region Bodensee-Vorarlberg. The following overview only gives you an outline at most of the five regions in Vorarlberg. Yet rest assured: behind the concise chunks of information lies a rich world of discovery.

## Lech-Zürs am Arlberg

The famous winter ski resort which, despite its extensive skiing areas, classy hotels and high-society guests, has managed to retain its original charm. It offers a discerning, cultural range of activities far from the events scene and party zones. The region is an inside tip for summer guests, a greater number of whom are discovering that the hiking routes and spectacles of nature have a particular charm of their own in summer – something the ski enthusiasts couldn't even begin to imagine. For its part, the Philosophicum attracts a clientele of its own to the idyllic location in autumn, turning it into the focal point of philosophical examinations of society.

[www.lechzuers.com](http://www.lechzuers.com)

## Bregenzerwald

In the region of the Bregenzerwald, tradition and design, construction with timber and architecture, rural life and internationally recognised craftsmanship live in harmony. A lot has been written about the Bregenzerwald alpine cheese – you really must try it and see for yourself. On the way to the village alpine dairy, don't forget to take a detour to the Werkraumhaus in Andelsbuch and to the Women's Museum in Hittisau. Both institutions can slightly alter your world view, and wouldn't that be a good thing? If you think that nothing can take you by surprise – go along to one of the numerous gourmet establishments for dinner. Maybe you'll get the surprise of your life!

[www.bregenzerwald.at](http://www.bregenzerwald.at)

## Montafon

Two impressive mountain ranges surround the Montafon – the Silvretta massif with the Piz Buin, which dwarfs everything else at 3,312 m, and the Rätikon with its glacier slopes. The Silvretta alpine road is considered the 'dream road of the Alps' and offers an unforgettable drive – not only for motorcyclists. People started settling in the then undoubtedly inhospitable region 5,000 years ago. Today, 61 cable cars, over 1,100 km of signposted hiking paths and plenty of hotel beds are proof that the region is now a place of hospitality.

## Alpenregion Vorarlberg

From the town of Bludenz, the Alpenregion extends to the valleys of Brandner-tal, Klostertal and the biosphere park of Großes Walsertal. They are all home to mountains, glaciers, forests, mountain lakes and rivers. The Lünersee, the shimmering like a crystal-clear, blue glass bead at the foot of the Schesaplana at an altitude of 1,970 m. At 2,965 m, the Schesaplana is the highest mountain in the Rätikon, with the history of the Rhaetians still living on in the names of many places. Hundreds of kilometres of hiking paths, ski lifts, golf courses, summer meadows and farms show themselves at their best. Cultural landscapes which have been lavishly tended for centuries characterise the Großes Walsertal. The recognition of it as a UNESCO biosphere park is a guarantee that these cultural treasures will be preserved. The parish of St Gerold is also a very special place not only because, for decades, it has been the meeting place for internationally successful musical talents who come here to give concerts or record albums – it lies nestled in a valley so narrow and so beautiful it is hard to put into words.

[www.vorarlberg-alpenregion.at](http://www.vorarlberg-alpenregion.at)

## Kleinwalsertal

The Kleinwalsertal is almost completely surrounded by high mountains. Its geographical location in the Allgau Alps means that it has no direct connection with Vorarlberg. It was a duty-free zone for a long time. Since the establishment of the EU, however, this has lost its significance. The diversity of the region, from beginner's runs through to alpine runs for advanced skiers – the skiing area of Kanzelwand-Fellhorn is considered an inside tip, for instance – is what characterises it. Whether it is relaxation, sports or a family holiday you are after, the wealth of options available make sure that many visitors will soon become regular guests. A look into the 'Walser Gipfelbuch' explains online why it is set to stay this way!

[www.kleinwalsertal.com](http://www.kleinwalsertal.com)

## Around Lake Constance

Fantastic spectacles of nature, art and culture, historic places and technical features – whatever your senses long for, the shores of the lake offer untold numbers of attractions for your journey of discovery. Maybe you just want to relax, take a lakeside seat and stare off into the distance – with a bit of luck a little steam yacht will sail past.

It is agreed that the below conditions shall apply to the issuance and use of the Bodensee-Vorarlberg Freizeitkarte (Leisure Card), hereafter known as BVFK:

### 1. Service content:

Upon purchasing the BVFK, the purchaser (BVFK holder) is entitled to use the services of the service partners set out in the Compact Folder. A direct contract is in place only between the BVFK holder and the service partner. The included services  cover the entitlement to make use of the respective service already paid for with the purchase of the BVFK. Bonus services  entitle the holder to a reduction on the fee payable for the respective service of the service partner being used.

### 2. Scope of service/Liability:

All service partners undertake to make available to the BVFK holders, in terms both of scope and time, the services labelled as BVFK services to their full extent during the promotion period in question, in line with their usual business hours and general terms & conditions of carriage and business. Bonus partners are subject to the best-price guarantee for individual customers.

Restrictions on taking up services under the BVFK may generally be derived from the operating hours of individual BVFK partner businesses that do not cover the entire BVFK promotion period, due in particular to meteorological conditions. Additionally, limitations may arise due to circumstances in the operating company (e.g. technical faults) and blocking periods – defined by one usage per day and per service partner. The published opening times and conditions of use in the Compact Folder, and the notice board at the service partner's premises, shall be the basis for the given service, but shall not be binding.

Bodensee-Vorarlberg Tourismus GmbH reserves the right to terminate the agreement with individual BVFK partner companies and bonus partners for good reason at any time, even during the promotion period, without having to provide the BVFK holder with any compensation for this lost opportunity to make use of the services offered. In particular, Bodensee-Vorarlberg Tourismus GmbH accepts no liability of any kind for any damage suffered by the BVFK holder in connection with using the services. Upon using the services offered under the BVFK, the BVFK holder only becomes the contractual partner of the BVFK partner company, to the extent that claims of any kind may be enforced exclusively against the service partner in question.

### 3. Particular restrictions of individual companies:

- Vorarlberg-Lines: 10% price reduction for the tour of Bregenz bay and the three country panoramic cruise.
- Laterns summer toboggan run and cable car: 10 – 20% price reduction on the ride.

- Boat Hire Bregenz and Boat Hire Hard: 10% price reduction on pedal boat or electric boat ride.
- Bicycle Hire Dornbirn: 20% price reduction on rented bike
- Bicycle Hire Bregenz: 10% price reduction on rented bike
- EwaldBikes Bregenz: 10% price reduction on rented bike
- Wasserpark Airvent: 15% price reduction on normal ticket price.
- Saumarkt Theatre: 10% price reduction on regular entrance fees.
- Poolbar-festival Feldkirch: 20% price reduction on tickets at the evening box office.
- Surfmax: 10% price reduction on rental of SUP, canoe, kayak and outrigger canoe (one hour for free for windsurf basic course or trial course).

The BVFK is a leisure card and the services included on it can be used for free once a day for each service partner, with a set blocking time of 00:00. Repeated use with a single partner several times on the same day is not permitted.

### 4. Validity conditions:

The BVFK card is issued in the name of the holder, is non-transferable and applies only in conjunction with a valid form of photographic ID. The services connected to the BVFK may therefore be used only by the named purchaser within the period of validity of the BVFK (promotion period). The BVFK is valid for one, two or three consecutive calendar days (valid from the date of issuance).

### 5. Use:

In order to claim the services included, the BVFK holder must present his or her card with the BVFK barcode so that its validity and the holder's identity may be verified by the BVFK partner company with a terminal or by simple visual inspection.

In order to claim the bonus services, the BVFK holder must present his or her card with the BVFK barcode so that its validity and the holder's identity may be verified by simple visual inspection.

The BVFK holder is required to present a valid form of photographic ID upon request. If he or she is unable to do so, free entry to the BVFK partner companies and/or price reduction with the bonus partners may be refused.

### 6. Misuse:

In the event of misuse or the suspicion of misuse, the BVFK partner companies are entitled and required to confiscate the card without any replacement. The BVFK may not be transferred to third parties – to do so may result in criminal proceedings.

### 7. Prices and reductions for children:

The prices set out in the Compact Folder (inclusive of value-added tax) are valid for adults and children (one-day card € 16 or € 8, two-day card € 25 or € 12.50 and three-day card € 32 or € 16). Children under the age of five are exempt from paying entrance fees. Children and young people up to the age of 15 are entitled to the reduced tariff.

### 8. Theft/loss:

If the BVFK is lost or stolen, the purchaser may report this on +43 (5574) 43443 – 0. Bodensee-Vorarlberg Tourismus GmbH accepts no liability in the event of the theft or loss of the BVFK.

### 9. Applicable law and place of jurisdiction:

Austrian law is exclusively applicable to all contractual relationships. The sole place of jurisdiction is the court legally responsible for Bregenz.

### 10. Data protection declaration:

When the BVFK is issued, personal data are processed; the BVFK holder consented to this by purchasing the BVFK. The data notified are used to develop and process the BVFK. The BVFK holder agrees that his or her data may be collected and saved on electronic data carriers for the purposes of bookkeeping, contractual fulfilment, etc. Personal data will be passed on to third parties without the consent of the client only in the event of urgent legal requirements or to the extent necessary for the use of the BVFK. Amongst other things, the data may be transferred to the relevant service partners in order to fulfil their service provision or used for statistical and administrative purposes.

Bodensee-Vorarlberg Tourismus GmbH takes organisational, contractual and technical security measures, corresponding to the state of the art, to ensure that the requirements of the data protection laws are complied with and that the processed data are protected from any accidental or intentional manipulation, loss, destruction and from access by unauthorised persons.

After the end of the card usage period, these data are blocked from further use and deleted after the retention periods laid down in taxation and commercial law, unless the BVFK holder has expressly agreed for his or her data to be further used or Bodensee-Vorarlberg Tourismus GmbH reserves the right to a more extensive use of these data that is legally permissible and of which the BVFK holder is informed below. The client account may be deleted at any time by sending a message to the email address [datenschutz@bodensee-vorarlberg.com](mailto:datenschutz@bodensee-vorarlberg.com).

The BVFK holder is entitled to receive information free of charge concerning saved data regarding his or her person and to amend incorrect data, withdraw permissions or to transfer, block or delete these data. In the event of any questions concerning the collection, processing or use of personal data, of information requests, amendments, transfer, blocking or deletion of data and the withdrawal of permissions granted or objection to a particular kind of data use, the BVFK holder may contact Bodensee-Vorarlberg Tourismus GmbH directly, using the contact data in the legal notice of the folder.

If the BVFK holder believes that the processing of his or her data infringes the data protection law or that his or her data protection rights are being infringed in any other way, he or she is entitled to complain to the data protection authority as supervisory authority.

**A leap into icy waters, nothing more. Such a dip in winter is completely unthinkable for most people but for a few of those in the know and their number continues to grow it is the key to happiness: breathe in, breathe out. The cold water switches off the mind and puts the body on alert. It is a little bit painful, even right down to the last pore. But it is a good pain. One that immediately supplies all organs with fresh blood that is full of the body's own feel-good hormones. It creates a state that fills body and mind with energy and a joy of life. We feel the pure will to survive. Breathe in and breathe out. Plus cold feet for a few moments. That is all it takes for true and profound happiness. Some say that it is addictive.**

You will find further inspiration for a feeling of exhilaration and favourite places in the magazine.
