Until 27 October 2024 the central theme is cleaning – inside, outside, everywhere, and aspects of cleaning and cleanliness, role models and ecology. www.frauenmuseum.at
- Up until 10 March 2024, the *Jewish Museum Hohenems* will be showcasing the photo documentation "A Place of Our Own" by the Israeli artist and photographer Iris Hassid, who accompanied four young Arab students in Tel Aviv in their day-to-day lives. The outcome makes the many different facets of contemporary Arab identity in Israel visible. www.jm-hohenems.at/en

Exhibits, mainly collected by Christian Lingenhölle from Bregenz, provide insights into the over 100-year ski history of the village. In addition to historic skis, the focus is on equipment and a colourful selection of memorabilia. On the 2nd floor, the new biennial special exhibition "Nona" is dedicated to the multifaceted potential of swinging: at scenic spots in Damüls and in the neighbouring villages of Fontanella Faschina in the Großes Walsertal Biosphere Park, large wooden swings invite visitors to swing. Why the swings are located in the mountains and how we can find relaxation in digital times through swinging is explained to visitors on a tour.

The "Tisch Zwölf" concept combines a sustainable, healthy and delicious lunch with new networking opportunities. Another aspect is important to the initiators, who include restaurant owners and vegetable producers: "We want to change the future," they say. Their goal is to make communal catering fit for the future. This is to be achieved with well-prepared regional, seasonal food and dining options in special places. Once a week, "Tisch Zwölf" is staged in Andelsbuch in Bregenzerwald, and once at CampusVäre in Dornbirn. The communal meal is highly popular - seats at the long table are almost always fully booked. www.tisch-zwoelf.at
